para 2 - p6 Cs

Collr. reports that it was an accepted wast before 1893 when it was transferred to the military authorities for use as a night soil trenching ground. The Board states that the

p7 Cs

land has been classed in the village accounts as military burial ground from fasli 13 (1911-12), that there are no records with the Collr. to prove definitely that the land was in the occupation of the military on 1. 4. 19 that it was waste as per account of 1921 that there are no tombs in the land and it does not appear even to have been used a burial ground.

2. The Collr. has not reported that any condit were attached when the land was transfe

the military in 1893 or that it was retransferred by them to this Govt. The fact that the land was transferred in 1893 without any condition seems to be sufficient for the Govt of India to claim it as theirs. The ~~claim of the~~ land in question may, therefore, be treated as being in the occupation of the Govt of India and included in the list of military lands outside cantonments. It has been included at p. 181 of S.O. 1656 d. 12-8-29. (2)

2. The Collr. states that as the land is without being used for the purpose originally intended and is not now required by the Govt of India for the effective discharge of their duties the case may be dealt with under rule 3 of the Land Transfer rules. Although the land is not now used by the military for the purpose originally intended it cannot be stated that it is not required by them for the effective discharge of their duties as they have leased the land ~~and is deriving~~ an income is derived from it. The Collr. and the Board have not stated that it is required for the purposes of this Govt. there is no case for taking action under rule 3 of the Land Transfer rules.

3. A draft order and letter are subd.
